

## ANNOUNCEMENT

# Customer Training Program

## FREE to Atlas Copco Customers

This program is designed to educate our customers on the basic requirements of operating and maintaining your new GX & GA Atlas Copco air compressor. This class will also instruct you on how to achieve superior return on your investment and maximize operating efficiencies.

The training will take place at our corporate office and be conducted by our corporate trainers Gary Tomlin and Lonnie McGuire (40 years of combined experience servicing compressed air equipment). The class will run from 10am – 3pm and include lunch.

### What you can expect to learn:

- ☑ Equipment
  - Basic operation of oil flooded compressors
  - Control items (purpose, operation of, etc.)
  - Elektronikon control operation (setting parameters, reading and resetting shutdowns / warnings, checking saved data)
- ☑ Basic Maintenance Requirements
  - Daily checks & Weekly checks
  - Quarterly service requirements
  - Semi-Annual and Annual service requirements
  - Maintaining compliance on factory warranty programs
- ☑ Impacts of Environmental and Operating Conditions
  - Identifying environmental and operating issues
  - Understanding the impact on consumables and other maintenance items
  - Correcting environmental and operational issues
- ☑ Installation, Air System, and Accessory Items
  - Factory installation guidelines
  - Air system checks
  - Quality air accessories

Please contact your local Air Technologies Account Manager to make reservations and for additional school availability dates.
